

to HR

I am writing to apply for a job, about recruitment opportunities in your Company as **Frontend Developer**. I believe that my strong technical experience will make me very competitive for this position. The main strengths I have for success in this position include:

1. I have created many ReactJS components that can help to build websites.
2. I joined the team to create a smart mall application based on an android application at PT. Visionet Data International.
3. I have experience as a freelancer to create web design into a ReactJS code.
4. I have experience working with GIT and API.

With 1 year experience as Frontend Developer, I have full understanding of website design system. I also have experience in learning and excel in new technologies as needed.

Please see my resume, my Github profile (<https://github.com/AlternatiF-App>) for additional information about my experience. I can be contacted anytime via email at fananiapps@gmail.com or my cell phone, +6282142931584 (whatsapp preferably).

Thank you for your time and consideration. I look forward to talking to you about this job opportunity.

Best Regards,

Ahmad Fanani
